

Miracles Behind the Scenes

Directors Comments

One of the most enjoyable and humbling experiences in making Inspirational and heartfelt films is getting to hear and see those amazing miracles behind the scenes play out first hand.

That is absolutely what drives my passion, which is how God created me. Basically if I'm moved and inspired I believe others will be too, even if inspirational family feel good films aren't your thing. I believe everyone has a special place in the heart which can be moved.

So with that being said, I would love to share the amazing testimonies of the miracles behind the Spirit of Love, the Mike Glenn story movie.

These are stories which I know to be true. So here Goes.....

We were 2 days away from filming and we needed an old school bus and an old 50's car. As we were driving around chasing actual small school busses and meeting with people and leaving messages for those who weren't responding. I stopped at a local mall to pick up a gift for someone when I noticed what I thought to be a farmers market in the parking lot. So my friend who was with me and I approached the area only to discover not only one 1950's car but over 100 different models of 1950's cars. God didn't only provide me with one car but he provided a 100 cars to choose from. I got out of the car small stipend which had previously been provided by an old friend. At the time that the money came in I really had no idea how I would use it

As I drove off in amazement I said thank you God that was amazing. But what do I do about the old bus. I know some would say how do you dare ask God that question right after you just received a gift. Yet I believe God provides miracles in many ways and in different ways for each of us. I specifically heard keep driving. So I did. My friend asked where we were going and I told her that I didn't know. I told her I felt as if I should just keep driving. After I had driven a few miles I discovered a large old bus sitting in the parking lot of a local Methodist church. I immediately pulled over and walked in and explained that we were making this Faith based family film and needed a bus. Not only did they give us the bus for free, they provided an amazing licensed and certified bus driver who we turned into an actor, and plays our bus driver in the movie. I will share more of these stories later relating to production, but for now I want to share miracle stories about the cast.

FOWARD

Most importantly I want people to know about these tremendously talented, gifted, and incredible teens. Many started life out behind the eight ball.

They may have started out drug addicted, abandoned, abused, left to die, or even worse.

Many parents were told if they survived birth they wouldn't or couldn't contribute to society, but I'm here to tell you they have and continue to do so every day in many ways. In my eyes they are true unsung heroes. The more I shared what I felt God's

purpose was for the film and how all of these incredible stories were coming out after filming was complete and the film is ready to be distributed I felt I should even share these stories as encouragement for others in "I Heard a Miracle"

“I Heard a MIRACLE”

Chapter 1

The reason why I finally decided to take the plunge and jump both feet into this project is simple. My wonderful nephew Hunter is hard of hearing and had just told me that he had new hearing aids that were the best ever. As boys do he compared them to a very expensive fast and sleek Italian sports car.

Hunter and his Mom Krista are a great inspiration to me daily. When I see how far they have come and what he has accomplished and has overcome since his birth I stand in awe. Many times I find myself speechless from sheer emotion and tears. Hunter was born with many medical issues and difficulties and we were told he would never speak, walk, etc. yet he does very well, and is extremely intelligent. He has had numerous surgeries and has more doctors appointments than you can imagine, yet he takes it all in stride.

Last year he played basketball in the championships for his 8th grade team. When he told me that it was the first time he ever felt accepted, I knew why I had to tell this story.

It reminded me of my own experiences as an athlete and coach.

Hunter is now a freshman and the only freshman on his high school golf team. Not to mention he is kind and loving and the best big brother, son, grandson, nephew, and friend anyone could ask for, and now he is acting and playing basketball on screen in a movie. He is our family's inspiration and true miracle.
